Highly skilled and innovative Web Developer with 1+ years of experience in designing and developing websites using modern front-end frameworks. Expertise in creating responsive and intuitive user interfaces that deliver a superior user experience. Proven ability to optimize website performance and implement security best practices. Skilled in integrating front-end applications with back-end services using RESTful APIs and other web technologies. The collaborative result with excellent communication skills and a passion for delivering high-quality software solutions.

WORK EXPERIENCE :

Junior Front-end Engineer – Prenetics

September 2022 - Current

Project: circledna.com (D2C eCommerce website)

- Developed and maintained E-Commerce projects using ReactJs, Node.js, and a framework called Next.js.
- Designed and implemented responsive and visually appealing user interfaces that were optimized for performance and accessibility.
- Integrated front-end applications with Node.js backend service to create a seamless user experience and checkout.
- Collaborated with cross-functional teams, including product managers, designers, and back-end developers, to deliver high-quality software solutions.
- Participated in code reviews and provided feedback to team members to ensure code quality and consistency.
- Contributed to developing internal tools and processes to improve development efficiency and quality.
- Created campaigns and flash sales, which drove 70% of total revenue in 2022.
- Implemented SEO best practices for an eCommerce project that resulted in a 15% increase in organic search traffic.
- Designed and implemented a custom product feature and security for APAC and EMEA users.
